

Maintenance Of Rotor Of TLT Booster Fan With Movable Blades RAF40-20-

1

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: YIKU
- Model Number: RAF40-20-1
- Minimum Order Quantity: 1 piece
- Price: negotiable
- Packaging Details: Wooden box
- Delivery Time: 2-3month
- Payment Terms: L/C, T/T
- Supply Ability: 2 units/month

Product Specification

- Name: Booster Fan
- Model: RAF40-20-1
- Purpose: Overcoming The Resistance Of Desulfurization Devices To Exhaust Flue Gas To The Chimney
- Impeller Diameter: 4000mm
- Hub Diameter: 2000mm
- Progression: Single Stage Impeller
- Highlight: **TLT Booster Fan, Movable Blades TLT Booster Fan, TLT booster blower**

Product Description

RAF40-20-1 Maintenance of rotor of adjustable axial flow booster fan with movable blades

机:从引 机出来的一路 入到 机,一路通 旁路 入到烟 .(旁路在 机 正常 行 不允 打 ,否 不 脱硫的烟气 保不 ,只有脱硫系 出 事故 情况下才允 打) 机出来的 入到脱硫系 中将烟气脱硫后排入烟 .

Booster fan: The air from the induced draft fan goes all the way to the booster fan, and all the way through the bypass to the chimney.(The bypass is not allowed to be opened during the normal operation of the generator set, otherwise the environmental protection of the flue gas without desulfurization is not up to standard, and it is allowed to be opened only when the desulfurization system has an accident.) The wind from the booster fan enters the desulfurization system and desulphurizes the flue gas into the chimney.
